*'Meibihars' PPAF*

*'Meibihars' PPAF*

## *Exclusively from Star® Roses*

*Star® Roses is located in the San Joaquin Valley of California where we grow over 5 million roses. We have a large selection of potted Hybrid Teas, Grandifloras, Floribundas, Miniatures, Landscape Shrubs, Climbers, David Austins and rose trees in various varieties and sizes.*

*In 2000, we introduced The Knock Out® Rose, the first member of The Knock Out® Family of Roses, which revolutionized the way we garden with roses. These low-maintenance, no spray plants are extremely disease resistant and they bloom from spring until frost.*

*We offer these beautiful roses in our 3 gallon signature Star® Rose pots. You can also purchase bareroot, boxed and packaged through Star® Roses.*

*For more information about Star® Roses, contact us at 1.800.457.1859 or visit our websites:*

[www.theknockoutrose.com](http://www.theknockoutrose.com)*

*Combines the classic features of a Hybrid Tea on a very compact plant. Stems are long enough for cutting and perfect for container growing. With a great fragrance, California Dreamin™ reminds us of our best selling Princess de Monaco, but more floriferous and compact.*

*Available in bare root or plugs throughout the country from Star® Roses.

# California Dreamin™

*'Meibihars' PPAF*

## DESCRIPTION

Combines the classic features of HTs on a very compact plant. Stems are long enough for cutting and perfect for container growing. With a great fragrance, California Dreamin™ reminds us of our best selling Princess de Monaco, but more floriferous and compact.

**Introducer:** The Conard-Pyle Co./Star Roses  
**Breeder:** Meilland International  
**Type:** Hybrid Tea

## THE BUD

**Form:** Ovoid  
**Color:** Cream-yellow suffused and edged with deep pink  
**Size:** Large 2"

## THE BLOOM

**Color:** Creamy white turning medium pink towards the edge of the petal, more prominent on the upper side than on the reverse  
**Form:** Cuplike  
**Number of Petals:** 28-35 on average  
**Size:** Large  
**Diameter:** 3 1/2" - 4" on average  
**Fragrance:** Good, citrusy

## THE PLANT

**Vegetation:** Vigorous  
**Habit:** Very bushy and compact for the type. Usually one single flower per stem, sometimes in clusters of 3 to 5  
**Foliage:** Dark Green, semi-glossy  
**Disease Tolerance:** Typical tolerance of the type  
**Flowering:** Abundant and continuous  
**Height:** 3' to 4' usually  
**Zone:** 6-9

*Available in bare root or plugs throughout the country from Star® Roses.*
