*'Meiroylear' PPAF*

## *Exclusively from Star® Roses*

*Star® Roses is located in the San Joaquin Valley of California where we grow over 5 million roses. We have a large selection of potted Hybrid Teas, Grandifloras, Floribundas, Miniatures, Landscape Shrubs, Climbers, David Austins and rose trees in various varieties and sizes.*

*In 2000, we introduced The Knock Out® Rose, the first member of The Knock Out® Family of Roses, which revolutionized the way we garden with roses. These low-maintenance, no spray plants are extremely disease resistant and they bloom from spring until frost.*

*We offer these beautiful roses in our 3 gallon signature Star® Rose pots. You can also purchase bareroot, boxed and packaged through Star® Roses.*

*For more information about Star® Roses, contact us at 1.800.457.1859 or visit our websites:*

*A new grandiflora rose with a unique color combination, All American Magic™ is less fragile than other striped roses when it comes to disease resistance and hardiness. The double flowers emerge in stripes of bright red and yellow and then fade to pink and cream.*

*Available throughout the country from Star® Roses.*

## DESCRIPTION

This new grandiflora has a unique color that sets it aside in the world of striped roses. It is also less fragile than most its brethren when it comes to disease resistance and hardiness. Great shiny foliage.

**Introducer:** The Conard-Pyle Co./Star® Roses  
**Breeder:** Meilland International  
**Type:** Grandiflora

## THE BUD

**Form:** Rounded  
**Color:** Bright red with buttercup yellow stripes  
**Size:** Medium 2" on average

## THE BLOOM

**Color:** Bright red with yellow stripes finishing medium pink and cream  
**Form:** Rounded  
**Number of Petals:** 35 on average  
**Size:** Medium  
**Diameter:** 3-3 ½" on average  
**Fragrance:** Slight red fruit (raspberry)

## THE PLANT

**Vegetation:** Very Vigorous  
**Habit:** Bushy, upright  
**Inflorescence:** Usually 4 to 15 flowers per stem  
**Foliage:** Medium green, very glossy  
**Disease Tolerance:** Typical of the type  
**Flowering:** Abundant and continuous  
**Height:** 5 ½'

*Available throughout the country from Star® Roses.*
