

Lemon Splash! 'Meisentmil' PPAF

'Meisentmil' PPAF

Exclusively from Star® Roses

Star® Roses is located in the San Joaquin Valley of California where we grow over 5 million roses. We have a large selection of potted Hybrid Teas, Grandifloras, Floribundas, Miniatures, Landscape Shrubs, Climbers, David Austins and rose trees in various varieties and sizes.

In 2000, we introduced The Knock Out® Rose, the first member of The Knock Out® Family of Roses, which revolutionized the way we garden with roses. These low-maintenance, no spray plants are extremely disease resistant and they bloom from spring until frost.

We offer these beautiful roses in our 3 gallon signature Star® Rose pots. You can also purchase bareroot, boxed and packaged through Star® Roses.

For more information about Star® Roses, contact us at 1.800.457.1859 or visit our websites:

Lemon Splash™ has a great ground cover habit that was created specifically for small gardens and container gardening. It also works well in hanging baskets and in rock gardens. Lemon Splash™ could easily qualify as miniature. It is Winter hardy and heat tolerant with the toughness and solid performance of its larger cousins, the Meidilands.® Lemon Splash™ will perform well in any given landscape situation especially in the dry climates of the West.

*Available in bare root or plugs throughout the country from Star® Roses.
