

Cl. Orange Crush™

'Meizernomi' PPAF

'Meizernomi' PPAF

Exclusively from Star® Roses

Star® Roses is located in the San Joaquin Valley of California where we grow over 5 million roses. We have a large selection of potted Hybrid Teas, Grandifloras, Floribundas, Miniatures, Landscape Shrubs, Climbers, David Austins and rose trees in various varieties and sizes.

In 2000, we introduced The Knock Out® Rose, the first member of The Knock Out® Family of Roses, which revolutionized the way we garden with roses. These low-maintenance, no spray plants are extremely disease resistant and they bloom from spring until frost.

We offer these beautiful roses in our 3 gallon signature Star® Rose pots. You can also purchase bareroot, boxed and packaged through Star® Roses.

For more information about Star® Roses, contact us at 1.800.457.1859 or visit our websites:

Climbing Orange Crush™ offers a new color for a modern climbing rose. Bright orange double flowers pop against the medium, green, glossy foliage. Flowers will not fade in the heat of the summer. This climber can reach up to 12' and generously reblooms throughout the season.

*Available throughout the country from Star® Roses.
